RE: *A Scale to Predict Technology Risk*
IRB Protocol Number: 15409

Dear Dr. Bailey:

Thank you very much for forwarding the modifications to the University of Illinois at Urbana-Champaign Institutional Review Board (IRB) office for your project entitled *A Scale to Predict Technology Risk*. I will officially note for the record that these minor modifications to the original project, as noted in your correspondence received January 9, 2015: minor revisions to consent; and minor revisions to data collection instruments; and minor changes to IRB application, have been approved. The expiration date for this protocol, IRB number 15409, is 12/01/2015. The risk designation applied to your project is *no more than minimal risk*.

Please note that additional modifications to your project need to be submitted to the IRB for review and approval before the modifications are initiated. To submit modifications to your protocol, please complete the IRB Research Amendment Form (see <http://irb.illinois.edu/?q=forms-and-instructions/research-amendments.html>). Unless modifications are made to this project, no further submittals are required to the IRB.

We appreciate your conscientious adherence to the requirements of human subjects research. If you have any questions about the IRB process, or if you need assistance at any time, please feel free to contact me at the OPRS office, or visit our website at <http://www.irb.illinois.edu>.

Sincerely,

Anita Balgopal, PhD
Director, Office for the Protection of Research Subjects
